

## Wedding Cakes

At Cakes By Request, we can create the look and feel (and taste) that best suits your wedding theme.

We have nearly 20 years of experience developing the art of cake decorating. We understand that your wedding cake is the focal point of your reception party, symbolizing those first sweet moments as newly weds.

Take a moment to look through our "Idea Gallery" for some sample design sketches. We are looking forward to helping you design a wedding cake to suit your individuality and needs. If you have any questions, please "Contact Us."
